DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11/23/2010 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 11/23/2010 and 11/29/2010 have been entered and considered by the examiner.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Linda Gunderson on 1/18/2011.

Claim 1 is amended as follows:

1. (Currently Amended) A method for detecting the presence of a signal on one of at least two frequency channels in a frequency translating repeater for use in wireless local area network (WLAN) operating according to a protocol, the method comprising:

establishing a first threshold associated with a first of the at least two frequency channels and a second threshold associated with a second of the at least two frequency channels;

monitoring the first and second frequency channels to detect the signal thereon in accordance with a first detection mode including the first threshold and the second threshold; and

qualifying, if when the signal is detected, to determine whether the detected signal is a wanted signal or an unwanted signal, wherein the qualifying further comprises

measuring an elapsed time associated with the detected signal, if the detected signal is the wanted signal;

refining at least one of a first or a second criteria based upon a threshold event, wherein the first criteria is refined if the threshold event is the elapsed time being greater than a minimum value and the second criteria is refined if the threshold event is the elapsed time being not greater than the minimum value.

Allowable Subject Matter

4. Claims 1-13, 15-30, 32-49, 51-58, and 60-66 are allowed over the prior art of record.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a method system and non transitory computer readable medium for detecting the presence of a signal in a frequency translating repeater for use in a wireless network, comprising establishing a first and second threshold associated with a first and second frequency channel, monitoring the first and second frequency channels to detect a signal, qualifying, when a signal is detected, to determine whether the signal is wanted or not, measuring an elapsed time associated with the signal if it is a wanted signal, an refining one of a first or second criteria based upon a threshold event, wherein the first criteria is refined if the threshold event is the elapsed time grater than a min value, and the second criteria is refined if the threshold event is elapsed time being not greater than the min value, as substantially described in independent claims 1, 17, 18, 34, 42, 48, 53, 54, 57, 62, and 63. These limitations, in combination with the remaining limitations of claims 1, 17, 18, 34, 42, 48, 53, 54, 57, 62, and 63, are not taught nor suggested by the prior art of record. The remaining claims are dependent from these claims and are therefore allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL T. THIER whose telephone number is (571)272-2832. The examiner can normally be reached on Monday thru Friday 7:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Edouard can be reached on (571) 272-7603. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
